

Life...Assisted, Inspired

About The Arbor at BayWoods

The Arbor at BayWoods is a state-of-the-art residential healthcare center next to the Chesapeake Bay, offering a full range of healthcare services. Surrounded by 14 acres of lush landscaping and beautifully mature trees, residents delight in having a pier and bayside walking trails just beyond their front door.

Residents enjoy private accommodations, cable television and telephone access. The finishing touches to each resident's accommodations are their own personal furnishings. Each resident and their families are encouraged to bring along all those special 'things' their loved ones collected during their more active years.

The primary goal of The Arbor at BayWoods is to promote independence, physical well being, and a feeling of being a part of our family. To accomplish these objectives, our trained and licensed staff provides an array of stimulating and engaging activities, both inside and outside our community. In addition, we offer housekeeping, laundry services, and supportive assistance with what we call activities of daily living. We're there to help with bathing, grooming, dressing, mobility, medications, and incontinence needs. Special diets and pharmacy services are also available.

The Arbor offers the full continuum of care, providing all levels of care and services for those residents in need of assisted living, memory care, on site rehabilitation, skilled, and long term nursing care. Our community is staffed 24 hours -day, 7-days-a-week by licensed nurses and other professionals as well as state certified nursing and geriatric assistants. Maintaining the highest degree of professionally trained health care practitioners is our goal and the reason for our success.

The Arbor at BayWoods – a healthcare community is here to serve the health needs of the residents.
